Background

The Nurses and Midwives Registration Act, Chap. 29:53\(^1\) was first passed on October 14, 1960. Since then it has been amended on three (3) occasions. The Minister of Health, in a speech dated Monday July 02, 2012\(^2\), indicated that despite the Ministry’s increase in the number of training programmes, there continues to be a severe shortage of nurses within the local health system. This, in addition to other factors, has impacted negatively on the Ministry’s manpower planning. The Minister went on further to state that the Ministry would be exploring various initiatives in an attempt to rectify the situation. It can therefore be surmised that the amendments to the Nurses and Midwives Registration Act, Chap. 29:53, is one such initiative.

What is the purpose of the Bill?

The Bill seeks to amend the Nurses and Midwives Registration Act, Chap. 29:53 by introducing a new category of nurses to be known as “advanced practice nurse” for whom there shall be created a new register.

Additionally, provision has been made for the appointment of an Attorney-at-law and a member of the public who is not an advanced practice nurse, midwife, nurse or nursing assistant, to the Nursing Council;

iv) provides for the employment of a suitably qualified person to be the Registrar of the Council; and

v) provides that the criteria for being considered a “fit and proper person” are:

- being of good character;

- being mentally and physically capable of performing satisfactorily, the duties of a nurse; and

- having the ability to understand, read and speak English.
