About this Guide

This guide provides a summary of expenditure for the Ministry of Trade and Industry for the period 2016-2022. It provides Members of Parliament and stakeholders with an overview of the Ministry’s responsibilities. The primary purpose of this guide is to consolidate the information contained within the various Budget Documents pertaining to the Ministry of Trade and Industry, and provide readers with an analysis of same. This guide is based primarily on:

- the Draft Estimates of Recurrent Expenditure 2022;
- the Estimates of Development Programme 2022;
- the Public Sector Investment Programme 2022; and
- the Auditor General’s Report on the Public Accounts of the Republic of Trinidad and Tobago for the fiscal year 2020.
Head 48: Ministry of Trade and Industry

Ministerial Overview
As one of the frontline Ministries within the Government of Trinidad and Tobago, the Ministry of Trade and Industry (MTI) is leading the drive to position Trinidad and Tobago as a manufacturing base, and the business, trade, and financial hub of the Americas.

The Ministry’s core responsibility is to grow trade, business and investment, particularly through driving the non-energy sectors of the economy. As the pivotal agency for trade promotion and development, MTI manages and coordinates the trade process to ensure access to international markets for companies located here. This is closely tied to another critical mandate — the aggressive development of business and industry. In this regard, MTI is formulating more appropriate industrial and services policies, designed to enhance the capability of the local industrial sector to compete in the global marketplace.

Much of MTI’s activities are geared towards creating a facilitatory and supportive environment for business, especially through developing the most appropriate legislative framework to support business and investment activities. MTI is also responsible for stimulating domestic and foreign investment and is working to upgrade the entire framework for attracting investment — the lifeblood of industrial activity. MTI conducts its affairs and provides required services with the highest regard and esteem for all clients and customers. The Ministry’s stakeholders are located within Trinidad & Tobago, as well as regionally and internationally, and are drawn from government circles, the private sector, and civil society.

Vision
A dynamic, client oriented organisation delivering integrated, quality services for business growth, trade and investment expansion and consumer empowerment.

Mission
To work as an innovative team, championing business growth, trade and investment for enhanced global competitiveness and promoting consumer interests for improved wellbeing.

Directorates
The Ministry of Trade and Industry has streamlined its operations into four key directorates which are summarised below:

1. The **Investment Directorate** of the Ministry is responsible for attracting inward investment especially in the non-energy sector and creating an enabling environment to retain such investment. The main objectives of the Directorate are to:
   - facilitate foreign direct and domestic investment for the growth of the non-energy sectors;
   - ensure a coordinated approach to investment promotion to attract further investments into the economy; and
   - ensure that Trinidad and Tobago is the premiere destination for investments.

2. The **Business Development Directorate** of the Ministry is to develop and grow business in Trinidad and Tobago. This objective can be further broken down into eight (8) processes which are captured in the Business Development Value Chain. The Business Development Directorate comprises two Units which are as follows:
   - The Business Support and Facilitation Unit which is responsible for addressing issues related to the business environment in order to make it more facilitating and transparent. It has oversight for the sectors identified by Government for development in its quest to diversify the economy of Trinidad and Tobago; and
   - The Alliances Unit which is responsible for managing stakeholder relationships and strengthening links with State Agencies which fall under the purview of the Ministry of Trade and Industry.

3. The **Policy and Strategy Directorate** works closely with other directorates, Ministries, and Agencies, by providing policy advice and direction on domestic and international policy issues; leading national business reforms; project monitoring and evaluation;
data analysis and business facilitation. The PSD also prepares and reviews strategic plans, policies, briefs, technical papers and presentations.

4. The Trade Directorate is responsible for identifying opportunities, negotiating trade agreements, developing policies, and growing and developing non-energy trade, particularly export-led trade in Trinidad and Tobago.

Summary of Development Programme Expenditure for the period 2016-2022

Development Programme is capital expenditure aimed at improving and enhancing development in different areas of Trinidad and Tobago which includes; human resources, economic and social development.

The allocation of \$85,550,000 for development programmes are presented in two parts as follows:

- Funds disbursed directly from the Consolidated Fund = \$68,050,000 and represent (79.5%) of the total allocation to the Police Service; and
- Funds disbursed from the Infrastructure Development Fund = \$17,500,000 and represent (20.5%) of the total allocation to the Police Service.
Creative Industries

The creative and cultural industries continue to form part of Government’s thrust towards growing the non-energy sector. As such, Government’s commitment to develop this sector is reinforced under Pillar 1 of the Roadmap to Recovery Report, which speaks to diversifying and transforming the Economy of Trinidad and Tobago. Under this Pillar, increased focus is placed on investing in steelpan manufacturing, cultural creative industries and tourism, among others, in order advance economic diversification and build the export capacity of the sector, while boosting competitiveness, productivity and employment generation in Trinidad and Tobago.

Towards this end, a sum of $1.5 million will be invested for the execution of programmes and projects geared towards the development of the fashion industry, in alignment with the approved Strategic Plan of FashionTT. The allocated funding is aimed at increasing the contribution of the fashion industry to the GDP, improving capacity and infrastructure of the fashion sector, creating channels to production and retail distribution, attaining the alignment of local industry activity with international market cycles and supporting the marketing and promotion of the fashion industry locally. To achieve these objectives, FashionTT will continue the implementation of activities as follows:

- the Fashion Value Chain Investment Programme:
  - Global Value Chain;
  - Non-Global Value Chain;
  - Business Advisory;
- the Implementation of the Local Production Facility;
- Fashion Industry Development Programme; and

---

The Film and Audio-visual Sector is a vehicle that supports other elements of the Creative Industries including fashion, music, performance and visual arts. The Trinidad and Tobago Film Company Limited (FilmTT), as a sub-company of CreativeTT, continues to drive the economic development of the film and audio-visual in Trinidad and Tobago. In fiscal 2022, funding in the amount of $1.0 million will be provided for the implementation of projects under three [3] major areas of the company namely: film commission, production sector development and administrative support.

Funding in the sum of $1.0 million will also be provided to MusicTT to support the growth and development of entrepreneurs and practitioners in the Music Sector and to broaden the opportunities and avenues for the sector as a whole. These funds will facilitate initiatives to address critical strategic areas at both the macroeconomic and microeconomic level, creating an enabling environment for stakeholders and practitioners to thrive. In fiscal 2022, MusicTT will support sub-projects geared towards the fulfilment of the overall music industry development as follows:

- Development of the Live Music District;
- Enhancement of the Music Tech Platform;
- Micro-investment and Micro-sponsorship Fund;
- Spotlight: An Artist Portfolio Development Programme; and
- Music Export Academy.

The Ministry of Trade and Industry will invest $1.2 million to establish and operationalise a Trade and Investment Promotion Agency in Trinidad and Tobago that will promote effectively promote business opportunities in export and investment of the local and international private sector. This project will facilitate the merger of all existing government trade and investment institutions within the Trinidad and Tobago into one organisational structure with specific functions based on international best practices, and will also seek to develop an
integrated management system to manage clients related to both export and investment and track organisational progress and achievements.

Consistent with the Roadmap to Recovery’s strategy to stimulate local demand and economic activity through steelpan manufacturing, the sum of $3.0 million dollars will be provided for further research and development, capacity building and mechanisms geared towards the further development of the steel pan industry. This investment will provide additional support to the Steel pan Manufacturing Grant Fund Facility to MSME’s, to provide financial support for the acquisition of new machinery, equipment, software, tools, raw material and training.

**Green Manufacturing**
Green manufacturing is also a critical element to the Manufacturing sector emphasised in the Roadmap to Recovery. To this end, Government will invest the sum of $2.0 million towards the Development of the Eco-friendly Businesses Sector. Boosting this sector is critical towards achieving the agreed upon UNDP SDGs by the year 2030. The funding will also aid in the development of MSMEs such as the Scrap Iron Dealers, promote recycling, energy efficiency and other environmentally friendly methods that helps to reduce the carbon footprint.

**Investing in Human Resource**
The enhancement of the human resource capacity is another fundamental component to achieving a globally competitive Manufacturing Sector. Thus, through the MTI, funds in the sum of $5.0 million will be provided to support the implementation of the National Apprenticeship Programme to create a cadre of trained and skilled individuals. This programme is designed to equip trainees with the necessary skills set for the Non-energy Manufacturing Sector that meets and exceeds the current and future skills gap in the Manufacturing sector. The training will be provided by the MIC-IT as the National Skills Development (NSDP) Journeyman Programme over the course of three (3) years as a full-time programme delivered in two (2) phases.
In fiscal 2022, the GORTT will invest a sum of $0.5 million to combat the prevalence of illicit trade and its negative impact on all actors of the economy. It was estimated that over $100 million is lost annually through various sectors and this contributes to a gap in tax revenue in Trinidad and Tobago of approximately $1,200 million. Combatting this underground industry requires a holistic and collaborative approach which has influenced the program design to achieve the following objectives:

- strengthen the legal framework to combat illicit trade;
- strengthen the capacity of Ministries and enforcement agencies to combat illicit trade;
- enhance collaboration among regulatory and enforcement agencies;
- promote public-private partnerships towards fighting illicit trade; and
- increase public awareness of illicit trade and the associated dangers.

**Technical Studies on International Trade**

Furthermore, an investment of $0.5 million will be made for the Conduct of Technical Studies on International Trade. The studies seek to provide sound technical grounding, to inform government policy to create and exploit new and existing regional value chains within CARICOM to aid the manufacturing sector in Trinidad and Tobago. Identified as a key area to improve the Manufacturing Sector, the project seeks to uncover new and alternate sources of inputs for manufacturing including raw material, labour/skill needs, as well as, retail and distribution requirements. Through a consultancy over a period of six [6] months, the research seeks to deliver on two [2] major areas:

- Study 1: Study on Regional Value Chains for the Manufacturing Sector; and
- Study 2: Strengthening Sectoral Linkages in Trinidad and Tobago.

**Industrial Development-Industrial Parks**

Emphasis will be placed on the development of new modern parks and upgrades to existing facilities to target firms in the specific areas of high-value and light manufacturing in emerging industries, in alignment with the overall development and diversification thrust by
the Government. In fiscal 2022, funding will be provided for continued expansion of the non-petroleum initiatives aimed at developing globally competitive domestic industries.

Of the nineteen [19] active industrial parks, fifteen [15] currently possess fire hydrant infrastructure which are mostly non-functional and have also been deemed non-compliant with current international specifications by the Trinidad and Tobago Fire Services (TTFS). In an effort to mitigate the risks associated with fires especially in light of the presence of many manufacturing entities on the parks, Government will invest $2.0 million towards the upgrade of the fire hydrant infrastructure to safeguard the physical assets of the manufacturing sector. These funds will be directed towards activities including the replacement of the existing non-functional fire hydrant pedestals and the installation of new fire hydrant pedestals and supply lines based on TTFS specifications.

Government will be provide $2.0 million in fiscal 2022 towards attracting investment and promoting business development to stimulate micro enterprises consistent with the Roadmap to Recovery Phase II Report. Focus will be placed on the following three [3] industrial parks which are at different stages of development, with both the Moruga Agro-processing and Light Industrial Park and Tamana InTech Park completed with room for further expansion while Phoenix Park and Industrial Estate is still under construction.
