Clause 29 of the Bill seeks to insert new sections 51A and 51B after section 51 of the Act. Proposed section 51A seeks to deal with “Times of Emergency” wherein the Minister may permit, by Order, a person who is registered to practise nursing or midwifery in his governing country, to provide specific skills and technology in Trinidad and Tobago as if he had been issued a licence to practise under this Act. The Order would specify the time period, for which this would be permitted.

Section 51B would also provide that the Minister may, by Order, permit nursing personnel who are registered to practise nursing or midwifery in their governing country and who are part of a planned visiting education or teaching programme or medical visiting treatment team, to provide specific skills and technology to practise as if a licence had been issued under this Act.

Clause 30 of the Bill seeks to make a general amendment by deleting the words “is guilty of” throughout the Act and substituting the word “commits”. This clause also seeks to make a general amendment in the Act by inserting before the words “is liable on” the words “commits an offence and”. This amendment is in keeping with our current legislative language.

Clause 31 of the Bill would seek to provide that where in any written law there is a reference to the “Nurses and Midwives Registration Act”, such reference shall now be substituted with a reference to the “Nursing and Midwives Act”.
