18. Doctor is responsible for identifying condition that requires prescription. **Jamaica**

19. “Fit and proper” are the criteria considered especially when renewing Cultivation Licences.

20. Trinidad and Tobago should consider whether additional, specific requirements are to be defined in subsequent regulations and the Dangerous Drugs Act.

21. Extend the time for inspections to allow better monitoring of compliance and to mitigate against diversion or inversion.

22. What is the purpose of specifying transport licence for religious purposes?

**Mechanisms for redress in relation to denied applications**

**Jamaica**

50. Additionally, in order to facilitate the transition to operations that meet all of the requirements to be licensed, cultivators have access to a “cultivator’s transitional special permit” which allows 30 months within which to graduate.

Religious use of Cannabis

Jamaica

51. Falls under the remit of the Ministry of Justice so that it is separated from Medicinal use of Cannabis.

General Comments

Jamaica

52. **Clause 15:** consideration should be given to expanding the qualification and experience of CEO to include Agriculture and Science as an asset.
53. **Clause 32:** reconsider the process of publishing notice in the newspaper and *Gazette* and affording people the opportunity to object in light of:
   - The sensitivity of the industry;
   - The possibility of lengthening the application process; and
   - May create more expense for the Authority.
   Consider adopting an in-house mechanism for due diligence and vetting.
54. **Clause 35:** limit the scope of entry. Recommended that Authority should be able to enter at any reasonable time, day or night.
   - Empower enforcement officer to arrest, search and seize without a warrant.
55. **Clause 36:** consider the “single instance transport licence” being referred to as a permit.

   - Does this licence preclude the religious persons from holding other licences for instance for trade?
   - Consider the practicality of not permitting commercial use of cannabis for religious purposes. Is prohibiting commercial gain an infringement on religious rights?
57. **Clause 48:** what mechanisms will be used to track cannabis for sacramental dispensaries?
   - What is the process for acquiring cannabis for sacramental dispensaries in light of commercial prohibition? How will operations be funded?
   - Are individual households allowed to grow cannabis?
58. **Clause 50:** what about consumption of cannabis in places outside of those listed in the Act?
   - Consider implications that may arise as act makes provision for medical use of cannabis by children while prohibiting the religious use of cannabis.
59. **Clause 51:** suggestion to reduce the days for inspectors to provide a report, as they would be important in informing the Authority’s decisions/
60. **Clause 3:** recommendation that the following be defined:
61. Consider having a clause on how cannabis should be marketed by licensees e.g. not marketing to children and measures depicting medical and not recreational use.
62. What is Trinidad and Tobago’s position concerning edibles?
63. How will Trinidad and Tobago address the correspondent banking issues be treated with in the global financial sector, given that cannabis is still considered illegal?

APPENDIX II

Key points considered at Virtual Round Table discussion
Eligibility for a licence

**Antigua/Barbuda**
- Must be at least 21 years of age.
- Must be legal resident or holder of Antigua and Barbuda passport.

**Barbados**
- Medicinal use only.
- Licenses are non-renewable after 5yrs and require licensee to reapply at least 3 months before expiration of license.
- Barbados’ aim is to become a centre for research and development.

**Jamaica**
- In agreement with eligibility criteria used by Trinidad and Tobago.
- Trinidad and Tobago should consider whether additional, specific requirements are to be defined in subsequent regulations.

License that permit sale and export

**Antigua/Barbuda**
- All owners of any Limited Liability Company must be listed on application form.
- Individual must be able to provide proof of finance.

**Barbados**
- 70 international /30 local ownership required for international companies.

**Jamaica**
- 51% is minimum for Jamaicans to have ownership and control in international partnerships.
- Will there be different regulations to address import and export?

Conditions for granting licenses

**Antigua/Barbuda**
- Once terms and conditions of regulations met a license will be granted.
- Licenses exist for businesses and individuals.
- Recommendations apply to cannabis for sacramental purposes but all medicinal cannabis must be prescribed.

**Barbados**
- Prescription by a doctor is the only way to access cannabis.
- Doctors have to confirm that patient is not addicted to a drug.
• Doctor is responsible for identifying condition that requires prescription.

Jamaica

• Trinidad and Tobago should consider whether additional, specific requirements are to be defined in subsequent regulations and the Dangerous Drugs Act.
• Extend the time for inspections to allow better monitoring of compliance and to mitigate against diversion or inversion.
• What is the purpose of specifying transport licence for religious purposes?

Mechanisms for redress in relation to denied applications

Antigua/Barbuda

• Tribunal as first step.
• Judge as second step.

Jamaica

• Consider removing clause 34(2) as it will make the appeals process redundant.
• Establish an appeals tribunal after the denial.

Mechanisms for treating with conflicts of interests among members of the Board of the Authority

Antigua/Barbuda

• If Director is a related party, interest must be declared and must recuse.

Jamaica

• Consider including Directors in clause 3(2).
• Jamaica has used provisions from their Corporate Governance Framework and Public Bodies Management Accountability Act as a guide for mechanisms to treat with conflict of interest.

The system/arrangements for prescribing medicinal Cannabis, particular to minors

Antigua/Barbuda

• Minors must have prescription and assigned caregiver who is issued the permit to obtain cannabis for the minor.
Jamaica

- Only prescription of CDB and not THC should apply to minors.
- Distinction should be made in law between the two. Adopt the definition from the single convention.
- Include that caregivers should be of sound mind.

The penalties for offences

Jamaica

- Consider reducing the term of imprisonment for caregivers and those using medicinal cannabis without a prescription or recommendation.

Whether Cannabis is a “gateway drug” to “harder” drugs

Antigua/Barbuda

- Insufficient research done however it can be abused like any other substance.

Barbados

- There are other drugs currently being prescribed that are more dangerous than medicinal cannabis therefore, within the correct framework, the threat is no greater.

Mechanisms for quality control

Antigua/Barbuda

- All licenses are currently provisional so operations have not started.
- However, provisions are being put in place to ensure quality control.

Barbados

- Strong requirements for “seed to sale” tracking.
- Very strong rules concerning quality and customs standards developed by National Standards Institute.
- Every licensee must have quality testing before trading.
Training for Doctors and Nurses

**Antigua/Barbuda**

- Training currently done online and very reliant on Jamaican resources.

**Barbados**

- Working with UWI in order to provide training to medical personnel.
- As industry being built out, a lot of stakeholder engagement through a technical working group of medical practitioners.

**Inclusion**

**Barbados**

- Careful thought given to how to include the “ordinary” resident or citizen who may desire access to a license/permit.

**Jamaica**

- Tiers have been developed in the licensing regime to facilitate the development of small farmers who may come together as cooperatives or friendly societies to achieve economies of scale in production.
- For those farmers who prefer to operate solely, there are provisions in the regulations for deferment of license fees or their security bond; waiver of fees and payment plans.
- Additionally, in order to facilitate the transition to operations that meet all of the requirements to be licensed, cultivators have access to a “cultivator’s transitional special permit” which allows 30 months within which to graduate.

**Religious use of Cannabis**

**Jamaica**

- Falls under the remit of the Ministry of Justice so that it is separated from Medicinal use of Cannabis.

**General Comments**

**Jamaica**

- Clause 15: consideration should be given to expanding the qualification and experience of CEO to include Agriculture and Science as an asset.
- Clause 32: reconsider the process of publishing notice in the newspaper and gazette and affording people the opportunity to object in light of:
  - The sensitivity of the industry;
  - The possibility of lengthening the application process; and
  - May create more expense for the Authority.
- Consider adopting an in-house mechanism for due diligence and vetting.
• Clause 35: limit the scope of entry. Recommended that Authority should be able to enter at any reasonable time, day or night.
• Empower enforcement officer to arrest, search and seize without a warrant.
• Clause 36: consider the “single instance transport license” being referred to as a permit.
• Part IV Clause 47: Jamaica has a separate Ministry that deals with sacramental use. However:
  o Does this license preclude the religious persons from hold other licenses for instance for trade?
  o Consider the practicality of not permitting commercial use of cannabis for religious purposes. Is prohibiting commercial gain an infringement on religious rights?
• Clause 48: what mechanisms will be used to track cannabis for sacramental dispensaries?
  o What is the process for acquiring cannabis for sacramental dispensaries in light of commercial prohibition? How will operation be funded?
  o Are individual households allowed to grow cannabis?
• Clause 50: what about consumption of cannabis in places outside of those listed in the Act?
  o Consider implication that may arise as act makes provision for medical use of cannabis by children while prohibiting the religious use of cannabis.
