2. **WHEREAS** there is a growing need for skills training and training in science and technology in developing societies like Trinidad and Tobago; and

**WHEREAS** many unmonitored and unregulated tertiary institutions have sprung up to cater to the desire to acquire such training and skills among students of differing levels, ages and abilities who have not gained entry to the University of the West Indies; and

**WHEREAS** there are other institutions and initiatives old and new in post secondary and tertiary education in Trinidad and Tobago whose programmes are associated with different sectors of the economy; and

**WHEREAS** there is a need to create a body with the intellectual authority and material and human resources to assess, regulate, and direct the development of this confusing array of so-called tertiary offerings and integrate them into coherent and authentic tertiary education programmes contributing to the social and economic development of the country; and

**WHEREAS** there is a need, further, for an institution founded on the recognition that skills training and training in science and technology depend upon scientific research and technological innovation of the kind associated with those places of higher learning called Universities; and

**BE IT RESOLVED** that the Government take all required steps and implement all necessary measures which could include but not be limited to the immediate establishment of the Office Banking Ombudsman and the expeditious enactment of the Truth In Lending Legislation in order to protect both citizens and Government from inappropriate banking practices and thus maintain the confidence and integrity of the Banking Sector.

*(By Senator Robin Montano)*
