4. Annual Report 1993/1994 of the Petroleum Company of Trinidad and Tobago Limited. [*Hon. W. Mark*]

5. Report of the Auditor General on the accounts and Financial Statements of the National Settlements Programme for the year ended December 31, 1992 as required by Loan Contract 584/OC-TT between the Government of the Republic of Trinidad and Tobago and the Inter-American Development Bank. [*Hon. W. Mark*]
6. Report of the Auditor General on the accounts of the Public Utilities Commission for the year ended December 31, 1992. [*Hon. W. Mark*]
7. Report of the Auditor General on the accounts of the Public Utilities Commission for the year ended December 31, 1993. [*Hon. W. Mark*]
8. Report of the Auditor General on the accounts of the Institute of Marine Affairs for the year ended December 31, 1994. [*Hon. W. Mark*]
9. Report of the Auditor General on the accounts of the Agricultural Development Bank of Trinidad and Tobago for the year ended December 31, 1994. [*Hon. W. Mark*]
10. Financial Statements of the Trinidad Nitrogen Company Limited for the year ended December 31, 1994. [*Hon. W. Mark*]
11. Seventeenth Annual Report of the Ombudsman of Trinidad and Tobago. [*Hon. W. Mark*]

**COUNTING UNREMUNERATED WORK BILL  
(LEAVE FOR INTRODUCTION)**

**Sen. Diana Mahabir-Wyatt:** Mr. President, I seek leave to introduce a Bill to require the Central Statistics Office and other public bodies to produce and maintain statistics relative to the counting of unremunerated work and to provide a mechanism for quantifying and recording the monetary value of such work.

The purpose of this Bill is to ensure that the unremunerated work which is done in Trinidad and Tobago, both by men and women, receive recognition, and to set out a procedure whereby this work can be recognized by the Central Statistical Office and that satellite accounts which will not interfere with the GDP, be drawn-up in order to quantify the amount of this work.

It is a very simple Bill, and, in fact, this is really the gravamen of the whole thing. It was as a result of two UN declarations and plans of action, one, which was developed in Nairobi in 1985, and the other in Beijing in 1995 and, in fact, which have been implemented in various other parts of the world.

Thank you, Mr. President.

*Seconded by Sen. M. Daly.*

*Question put and agreed to.*

**LAND ACQUISITION**

**The Minister of Agriculture, Land and Marine Resources (Hon. Dr. Reeza Mohammed):** Mr. President, I beg to move the following Motion standing in my name,

That this House approves the decision of the President of the Republic of Trinidad and Tobago to acquire the lands described in the Appendix for the public purposes specified.

For the benefit of all new Members the description of the lands and the purposes for which they are acquired are itemized in the Appendix to the Order Paper which all Members are provided with.

**1.40 p.m.**

It should be noted that the procedure of acquisition in some cases was initiated as far back as 1986 so that parliamentary approval, therefore, is long overdue. Members should also be aware that the existing system of land acquisition is very bureaucratic, and by nature, a slow and tedious process, and every effort is being made to address this problem.

I wish to advise this honourable Senate that the Ministry of Agriculture, Land and Marine Resources is presently revisiting the existing legislation, and the 1994 Land Acquisition Bill with a view to enhancing the efficiency of the process of acquisition.

Parcel 1, as identified in the Appendix, refers to the land located along the Toco Main Road which is being acquired to facilitate improvement of the road alignment for a bridge construction in the County of St. Andrew. Equally, in the County of St. Andrew, the land listed under parcel 2 is required to house a T&TEC sub-station along the Valencia Road.

Parcel 3 refers to land located at Morton Street, Tunapuna which is being acquired for the purpose of building a public library. I am certain all Senators would agree on the importance of a library service.

Parcel 4 is required for construction of a bridge along the Maracas Royal Road which is expected to bring relief to residents and road users during peak hours.

Parcel 5 refers to land being acquired in the Parish of St. Patrick, Tobago, to facilitate the expansion of the Crown Point runway. As you are aware, Mr. President, in keeping with the wishes of our citizens we will continue to build and keep Trinidad and Tobago together.

*Land Acquisition*  
[HON R. MOHAMMED]

*Tuesday, December 5, 1995*

Approval is also sought for the acquisition of the land cited as parcel 6 towards the improvement of the Churchill Roosevelt Highway from Golden Grove to Arima.

The land outlined as parcel 7 on page 5 of today's Order Paper is required to facilitate the East/West Corridor Highways Project, that is the Priority Bus Route along the East/West Corridor.

Parcel No. 8 is being acquired for further road development along the Sir Solomon Hochoy Highway in the County of Victoria.

Parcel No. 9 refers to land designated for road improvement along Plymouth Road in the sister isle of Tobago and comprises 2708.2 square metres.

The lands listed under Nos. 10 and 11 are required for the laying of the natural gas pipeline which will lend support to expansion of business, and to some degree, the creation of employment.

Parcel No. 12 relates to land at St. John's Trace in Avocat designated for the provision of a recreation ground and access to the said recreation ground in the County of St. Patrick.

Parcel No. 13 seeks the approval of this Senate for the acquisition of land along the bank of the Maraval River towards the provision of an access ramp to the river in the County of St. George.

Hon. Senators, these acquisitions are in keeping with sections 3, 4, and 5 of the Land Acquisition Act, Chap. 58:01. I wish to reiterate at this point my Government's commitment to ensuring that the chronic delays which now attend the process of compensating persons whose lands have been acquired by the state are eliminated and that the procedure becomes more humane and efficient, bringing much relief to all concerned, and by extension to the national community.

Mr. President, I beg to move.

*Questioned proposed.*

**Sen. Nafeesa Mohammed:** Mr. President, before commenting on the Motion which is before this honourable Senate, I would like to take this opportunity to congratulate you, Sir, on your elevation to this very high and honourable position of President of the Senate of Trinidad and Tobago. We know, that given the experience you have had in other areas of activity in this country, that you will serve this honourable Senate very well. On this side of the Senate, we look forward to working with you.

Mr. President, we on this side have no difficulty in giving support to any measures that are designed to improve the welfare of the people of Trinidad and Tobago. The acquisition of the parcels of land described in the Appendix will certainly contribute in this regard and we are, therefore, in total support of this Motion.

I thank you, Mr. President.

**Sen. Prof. John Spence:** Mr. President, may I add my congratulations to those of the last Senator on your appointment to this high office of President of the Senate.

May I also offer my congratulations to the Government on their election in the last general election, and to my fellow Senators on their selection as Senators to this House. But particularly, may I offer my congratulations to the hon. Minister who was a former colleague of mine and wish him all the best in his present portfolio.

I certainly have no difficulty in supporting the Motion. It has been the custom in the last 9 years that I have been in the Senate, at this point to criticize Government for not having paid their bills in respect to land acquisition, but I am hoping that we will no longer need to do so in the future. I think we should accept the assurance given by the hon. Minister that the system will be changed.

I would like to offer my support to him in any other aspects of progress in the agricultural sector that he may put forward and he knows that I have spent many hours in this Senate trying to persuade my colleagues and past Governments that this is an important sector. I will support him in any issues he may have with the Minister of Finance because in the past, I have had some issues with respect to the agricultural sector from the hon. Minister of Finance, but I am sure that now he has changed in many ways, he may have changed in his attitude to the agricultural sector.

Thank you very much, Sir.

**The Minister of Agriculture, Land and Marine Resources (Hon. Dr. Reeza Mohammed):** Mr. President, my heartiest thanks to Sen. Prof. John Spence for his intended support. I have known Prof. Spence for a very long time, as a matter of fact, I can say to this honourable Senate that both Prof. Spence and Sen. Kenny knew me in short pants.

**1.50 p.m.**

Mr. President, I look forward therefore to the support of Sen. Prof. Spence in the future and assure him that my Government, through the Minister of Finance, will ensure that the necessary budgetary measures will be taken in keeping with the Land Acquisition Act.

I therefore acknowledge and appreciate what both Sen. Prof. Spence and Sen. Nafeesa Mohammed have said and I assure this Senate that my Government shall continue to work towards the upliftment of Trinidad and Tobago and all its peoples. Thank you, hon. Senators.

Mr. President, I beg to move.

*Question put and agreed to.*

*Resolved:*

That the Senate approves the decision of the President to acquire the lands described in the Appendix for the public purposes specified.

#### APPENDIX

Description of Land	Public purposes for which to be acquired
1. The following parcel of land containing 748.5m <sup>2</sup> , more or less situate near Bridge 1/3 Toco Main Road, in the Ward of Manzanilla, in the County of St. Andrew, described in the Schedule hereto and coloured raw sienna on a plan of survey signed by the Director of Surveys and dated August 3, 1994 executed under Survey Order No. 106 of 1993 and filed in his office.	Improvement to Road Alignment for Bridge Construction
